MULTI-MOUNT
POWERSPORTS WINCH CARRIER

PORTABLE WINCH CARRIER FOR USE WITH 2" HITCH RECEIVERS

MADE IN USA

This versatile, portable mount lets you move your winch from the front to the rear of your ATV, UTV, small truck/SUV, or a utility application. It also lets you transfer your winch from vehicle to vehicle. Multi-Mount slides into a 2" class III hitch receiver and provides the ultimate in versatility, allowing you to pull from either direction.

Multi-Mount is built strong and engineered to stand up to the rigors of winching, plus it wears a powder-coated finish resists corrosion for years.

The latest Multi-Mount accommodates all WARN AXON and VRX winches—as well as other winches with the same mounting bolt patterns—up to 6,000 lbs. in capacity. Simply bolt on the winch, wire it with WARN Quick Connect wiring (sold separately), insert it into a 2" receiver, and you're ready to go. Includes two winch mounting plates to accommodate most winch mount bolt patterns, plus a hitch pin.
