

Autotecnica

HEAVY-DUTY ALUMINUM OIL FILTER COVER

FD1416939PRM | 2015–2025 Ford, Lincoln

OEM DESIGN FAULT

The plastic oil filter covers found on modern engines often become brittle after repeated heat cycles and can instantaneously fracture, leading to catastrophic loss of oil pressure and engine lubrication.

AUTOTECNICA PREMIUM SOLUTION

Autotecnica offers heavy-duty aircraft-quality aluminum oil filter covers, which are impervious to engine heat and oil exposure. Typically equipped with quality AEM or NBR elastomer seals, Autotecnica Premium filter covers fix the problem right the first time.
