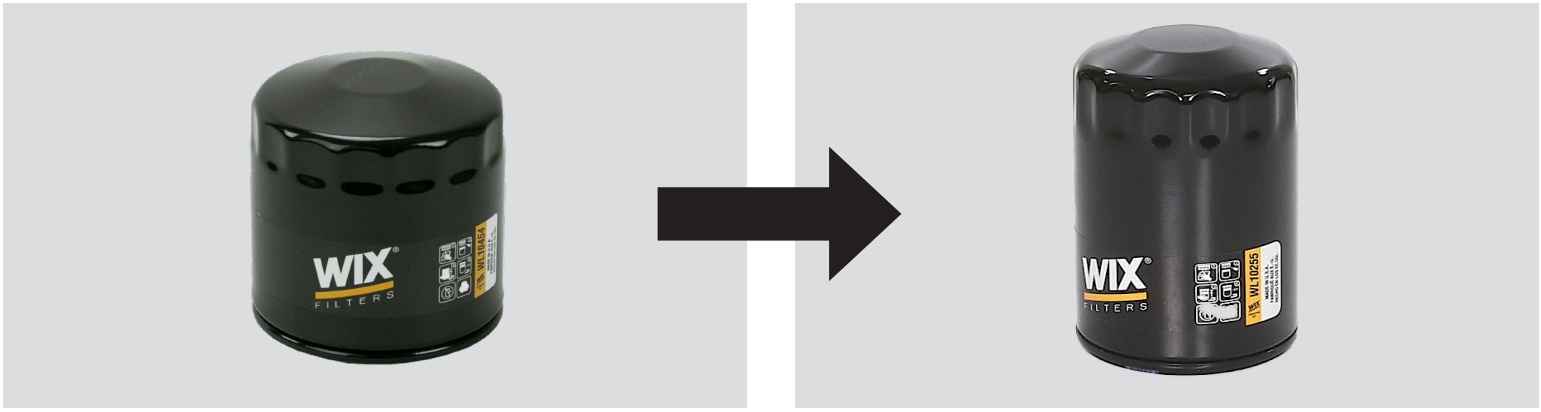
WL10454 SUPERSESSION TO WL10255

To consolidate parts and improve performance, GM has updated their filter recommendation from PF26/ PF26F to PF63/PF63F. The change includes the Duramax starting with 2020 MY and 2006-2009 LC3 engines. To remain consistent with the GM recommendations, WIX catalog number WL10454 will be superseded by WIX catalog number WL10255. This change from the WIX WL10454 to the WIX WL10255 will apply to all currently cataloged WL10454 applications.



WL10454 **WL10255**

FILTRATION PERFORMANCE

Both the WL10454 and the WL10255 continue to provide the filtration performance required by cataloged applications and remain suitable for use as this change is implemented. The WL10255 filter by-pass setting, and performance is consistent with the new updated OES recommended filter and is appropriate for use as the updated replacement filter.
