EQUIP YOUR POLARIS RANGER

PREMIUM ACCESSORIES TO MAKE IT EVEN MORE CAPABLE

FABRICATED ACCESSORIES TO OUTFIT THE 2025–2026 POLARIS RANGER

112236 Premium Front Winch Bumper

112273 Premium Rear Winch Bumper

MADE IN USA

The Polaris Ranger is one of the most popular UTVs on the market. Warn Industries is now offering products to improve the UTV's durability, capability, and versatility, letting owners get the most out of this hard-working vehicle. Designed, engineered, and made in the USA, these products will help customers get more done and withstand the rigors of the job site or the trail.

Premium Front Winch Bumper for 25–26 Polaris Ranger

Made of heavy-duty steel, this bumper features an improved winch mount position that provides easy access to the winch and improved drum visibility. All this means a better, simpler, and potentially safer wincing experience.

KEY FEATURES INCLUDE:

- Heavy duty steel construction for the ultimate in durability.
- Improved winch mount position provides easier access and drum visibility, and accommodates winches up to 6,000lbs
- Welded recovery points for use with shackles for increased recovery options
- Integrated center light mounts for auxiliary cube lights or a light bar (lights not included)
- Integrated 2" front hitch receiver for a variety of accessories
- Compatible with WARN plow mount
- State-of-the-art powder-coating stands up to 408-hours salt spray testing for excellent corrosion resistance and years of good looks
- Designed, engineered, tested, and manufactured in the USA
- One-year limited warranty

Premium Rear Winch Bumper for 25–26 Polaris Ranger

Having a winch on the rear of a UTV adds extra versatility when it comes to moving heavy loads or for vehicle recovery. Made from heavy-duty steel, this integrated winch bumper accommodates winches up to 2,500 lbs. in capacity and has a clean, concealed look.

KEY FEATURES INCLUDE:

- Heavy-duty steel construction for maximum durability
- Integrated winch mount designed for winches up to 2,500 lbs. and includes contactor mounting bracket
- Includes dash switch, handheld remote with remote socket, and extended wiring for multiple methods of control
- Welded eyelets provide additional recovery/pulling points
- Precision cut-outs and mounts for 3" cube lights
- State-of-the-art powder-coating stands up to 408-hours salt spray testing for excellent corrosion resistance
- Designed, engineered, tested, and manufactured in the USA

More Full-Featured Accessories for the 25-26 Polaris Ranger

KEY FEATURES INCLUDE:

- Compatible with all models, with or without a full cab
- Easy installation that utilizes OE mounting points — installs in less than 1 hour with no cutting or drilling
- Multiple options for forward facing lights (lights not included)
- Abundant tie down points within the top tray and outer structure give you options for securing cargo
- Heavy-duty steel construction for maximum durability and strength, hefty 150 lb. load capacity
- State-of-the-art powder-coating stands up to 408-hours salt spray testing for excellent corrosion resistance for years of good looks
- Designed, engineered, tested, and manufactured in the USA
- One-year limited warranty
