ÜRO Parts

HEAVY-DUTY ALUMINUM OIL FILTER HOUSING

03L115389CPRM | URO-022799 | 2012–2014 VW

OEM DESIGN FAULT

The plastic oil filter housings found on modern engines routinely warp after repeated heat cycles and can instantaneously fracture, leading to catastrophic loss of oil pressure and engine lubrication.

ÜRO PREMIUM SOLUTION

URO offers heavy-duty aircraft-quality aluminum oil filter housings, which are typically equipped with structural reinforcement webbing, FKM or NBR elastomer seals, and a high-quality filter element.
