## **WIX WL10050 Cartridge Oil Filter Replaces Ford® FL2062 (2015-2016)**

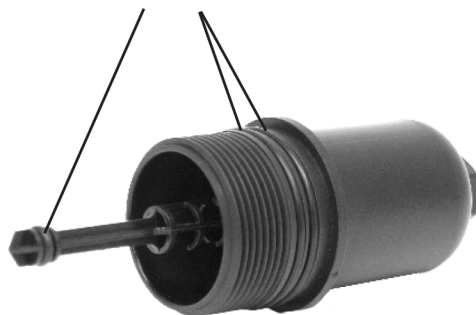

The WIX WL10050 Cartridge filter is now available for various Ford® applications. The filter offers universal fit with Nitrile sealing gaskets on both endcaps. The floating center-tube design, like the OE, provides the required structural support necessary for the operating demands of the 2.7L EcoBoost® engine's lubrication systems. Engineered to provide great performance, the new WL10050 lube filter is ready to protect your engine.

### **INSTALLATION TIP:**

The WIX WL10050 ships with three O-rings that must be correctly placed for proper oil cap sealing. Note the location of the O-rings when removing the cap to ensure that the new O-rings are properly placed during the oil servicing process.

Note: (3) O-Rings Included With Filter

| Make    | Model        | Engine          |
|---------|--------------|-----------------|
| Ford    | Edge         | V6 2.7L 164 CID |
| Ford    | F150 Pickups | V6 2.7L 164 CID |
| Lincoln | MKX          | V6 2.7L 164 CID |
