Product Information

This revolutionary and patent pending new LED/Camera Docking light from Marine Sport Lighting is the first to market for the Marine Industry. The RSCCLED3 will allow boaters to safely dock their larger vessels at night by not only lighting the dock up, but also now through the drivers video High Performance. If you are looking for a better docking light + a revolutionary new video function, this is the product for you. This stylish new light is surface mount and comes with a custom molded silicone gasket for mounting to ensure your light fits right, and will withstand all the elements. • Help your guests board and exit safely • Provides extra light to find the channel markers with great visibility • Best used at the front of the vessel to illuminate surrounding area when docking. • Ideal for boaters who launch/dock early in the morning or late in the evening. • Camera can be used to monitor surrounding area when pulling into dock. • Ideal for boaters with large vessels w
