Pro-Line Gasoline System Cleaner

Description

An effective mixture of additives used to clean and maintain fuel systems of injected or carbureted gasoline engines.Cleans injectors and the combustion chamber, restores proper fuel atomization and improves engine efficiency. Suitable for use as problem solver and for preventive maintenance.

Properties

- exact dosage
- guarantees low fuel consumption
- increases operational reliability
- removes carbon deposits from the intake valves and in the combustion chamber
- reduces pollutant emissions
- cleans and maintains
- optimizes economical use
- cleans fuel system
- assures precise atomization

Technical data

Base	Additive, spezielle Trägerflüssigkeit / additives, special liquid carrier
Color / appearance	hellgelb, klar / light yellow, clear
Form	flüssig / liquid
Odor	charakteristisch / characteristic
Density at 59 °F	0,820 g/ml
Flash point	>145 °F
Viscosity at 104 °F	<7 mm²/s

Areas of application

Suitable for use in all 4-stroke gasoline engines, with or without turbochargers. Safe for use with catalytic converters and particulate filters (GPF).

Application

To be added directly into the fuel tank. As a preventive measure, add during each inspection, after repairs on the fuel system and after each Jet-Clean cleaning operation. The product mixes with the fuel automatically. Contents (500 mL) is sufficient for 25-70 Liters (7 gal. to 18 gal.) fuel.
