

# RE539279

The WIX 57750S is **NOT** the correct replacement filter for applications that require the JD RE539279 filter.

Larger Inner Sealing Diameter

The RE539279 filter (not currently available through WIX) has a larger inner seal diameter and is therefore not interchangeable with the WIX 57750S.

Use current catalog information and application details to ensure correct filter selection.

As a reminder, it has always been, and remains our recommendation that the selection of a replacement filter be conducted using only the most current application information available. In today's cataloging, the electronic resources (i.e. Internet, interactive electronic) would be the most current application information available.
