PRODUCT UPDATE

WIX 49519 Product Update

In response to customer feedback, the WIX 49519 air filter has been redesigned. The former metal end cap design has been replaced by a nylon glass filled end cap. This change aligns the appearance of the product to that of the OES replacement filter.

Former Metal End Cap Design

New Nylon Glass Filled End Cap

New Design in Housing

As a reminder, it has always been, and remains our recommendation that the selection of a replacement filter be conducted using only the most current application information available. In today's cataloging, the electronic (i.e. internet, interactive electronic) would be the most current application information available. For questions or more information, please contact your local WIX Filters District Manager or call Product Information at 1.800.949.6698
