Product Information

Introducing the 1007532 3-Mode Rechargeable LED 350-Lumen Mechanics Pencil Flashlight – your ultimate companion for precision illumination in any task! With its cutting-edge features and versatile design, this flashlight is set to redefine the way you light up your world. At the heart of this flashlight is a powerful LED bulb that produces an astonishing 350 lumens of bright, focused light. Its 4x zoom projector enables you to adjust the focus, providing both wide-area coverage and intense spotlighting, making it perfect for any situation. With three distinct lighting modes – high, medium, and low – you have full control over the intensity of your illumination. Crafted with mechanics in mind, the flashlight boasts a sleek pencil-like design that fits comfortably in your hand. The ergonomic grip ensures that you can hold it securely even in the most demanding situations. Experience unparalleled convenience with the built-in USB charging port. Simply plug it into any USB pow
